

Student Information

1. All students are expected to wear regulation dancewear at all classes. Beginners are advised to obtain the uniform after the three-week trial period.
2. We must insist on “correct” uniform in all classes. A lack of the school’s “dress code” results in the teacher’s inability to see physical problems which may need correction, & reflects an undisciplined approach to work habits which shows in the student’s progress.
3. Hairstyles that are very acceptable generally, are not practical in class, because of the importance of showing correct head & shoulder lines, & are a big problem when trying to perform any type of quick turning step.
4. We reserve the right to refuse a student’s active participation in class if not correctly attired, & without a reasonable excuse. The school cannot provide equipment on loan to students who forget dancewear.
5. Please label clearly all shoes, dancewear, & winter boots. We are not responsible for lost articles or clothing.
6. White socks may be worn in place of tights during May & June.
7. No jewelry except small earrings for pierced ears.
8. Gum chewing is not permitted in class.
9. Please be prompt; latecomers restrict the class’s progress.
10. All money & valuables (watches, etc.) should be brought into the studio. Do not leave them in the dressing room.
11. Parents are asked not to leave students & other children unsupervised in the building more than 15 minutes before or after class. Sisters who wait for a sister still in class must be supervised by a parent & not allowed to wander throughout the school. We cannot have the responsibility of these students & children beyond the expected time of supervision.
12. Senior students should not arrive more than 20 minutes prior to class & leave directly after, except wherein there is a suitable reason.
13. Students who are reprimanded for “excessive” noise or disturbance while waiting will be warned once, their parents notified the second time, & asked to discontinue class the third time.
14. Barring sudden illness or injury, students must present a note from a parent to be excused from participation in class. Students attending to observe class when unable to participate is very helpful to their continued progress. Parents will be notified if a student does not participate or is unable to complete class, for whatever reason.
