

We are all experiencing changes with COVID-19 protocols in many areas of the school, business & home. We all hope this is a step toward a return to normalcy in our daily lives.

The studio will be making changes cautiously, as our 4 & under students at this time, cannot be vaccinated. As much as we desire to make things easy & convenient for parents with less paperwork & rules, our priority is to keep the children safe & healthy. None of our students to date have contracted the virus. We hope to keep a clean record by not rushing into changes too quickly.

We will make some changes. These changes may affect Junior students differently from our Senior students & Adults.

1. Students are no longer required to wait outside at the fence line but may enter the building upon arrival.
2. Junior students must come pre-dressed for class. Each student should have a dance bag big enough for dance shoes, a water bottle & outdoor clothing, including coats. Dance bags with outdoor items to be placed on designated numbers.
3. Senior students (12 & over) may place items as pre-COVID-19 instructions.
4. Middlesex London Health Unit requires proof of vaccination for children 12 & over in order to participate in physical activities. Please email the proof to the studio.
5. Vaccinations are now available for children 5 & over. Please email proof to the studio.
6. Proof of 2<sup>nd</sup> dose vaccination for Parents is required to enter the building (via email).

7. Masks will still be worn by Students, Staff & Parents entering the building for all classes, to protect all our students.
8. No food or treats of any kind should be brought to the school for consumption.
9. No sharing of personal items such as hairpins, etc. with other students.
10. We request that cell phones are not used or handled in the building for hygiene reasons.
11. Barre & other high traffic surfaces will be cleaned frequently between classes to ensure the safety of all the children & staff.
12. Sanitizing of bathroom facilities after each use will continue - so please notify the front desk when using bathrooms.
13. We require families to continue with COVID-19 Screening & Tracking procedures & complete the form each time before entering the building.
14. Should any changes occur to the current government restrictions & the studio is required to close, the classes will be continued by Zoom & No refunds will be offered.

We will notify you of any changes that will be introduced over the Dance season. Please be patient, with us. We do not want to rush into changes that would perhaps compromise the health & well-being of all.

We cannot express our gratitude enough for your trust & support over the last two years. We are very aware of the difficulties parents have faced in the decisions that they have had to make with extra-curricular activities. We are dedicated to making your choice worthwhile, in your child's Dance education & hope in time we can show the hard-working efforts of the students of the school.

Our Sincerest Thanks,  
*Victoria Carter & Staff*
